DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 35 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis for the cooking apparatus being "foldable".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5, 9, 10, 18 and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Lang.

There is disclosed in Lang a cooking apparatus, comprising: a housing supporting a planar cooking surface divided into two cooking surfaces 38, 39 by a center seam; a heating element 46; a mechanism 24, 24 disposed along the center seam for preventing fluids from draining therethrough; and controls for the heating elements.

Claims 1, 4, 7 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Michaelis et al.

There is disclosed in Michaelis a cooking apparatus, comprising: a housing 2 supporting a planar cooking surface divided into two cooking surfaces 34, 36 by a center seam; a heating element 42; and a mechanism (ridges) disposed along the center seam for preventing fluids from draining therethrough.

Allowable Subject Matter

Claims 3, 6, 8, 11-17, 19-21 and 23-33 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 36-38 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Newell, Nash and Brady are cited for their disclosure of the state of the art.
